THE AQUAPOTS® SOLUTION

Developed by Award-Winning Landscape Architect Jack Barnwell

As an industry professional, you're looking to offer unique, profitable solutions that set your business apart. AquaPots self-watering containers deliver just that. Your customers will be amazed how simple it can be to enhance their outdoor living spaces using one of a kind AquaPots. They will love the look of the lush, vibrant plantings, not to mention the time and hassle saved in watering.

A Stylish Solution That Really Works

AquaPots are an exceptional, patent pending concept in self-watering containers invented by award-winning landscape architect Jack Barnwell of Barnwell Landscape and Garden. As an avid user of Michael Carr Designs Pottery, Barnwell saw the need for gorgeous, commercial grade, self-watering containers for the variety of properties he services across the country. He worked with Michael Carr to develop this stylish yet practical solution for his clients.

AquaPots are the first and only premium quality glazed ceramic self-watering pots on the market. They are not an insert but rather a complete system that is integrated right into each container. AquaPots are handcrafted by artisans at Michael Carr Designs Pottery of Vietnam, a favorite luxury brand among home gardeners. The pots are crafted using time tested techniques and an old-world kiln that gives each piece its own special character.

Brought to You by Proven Winners®

The same brand that brought you some of your best selling plants like 'Limelight' hydrangeas, Wine & Roses® weigela and Supertunia Vista® Bubblegum petunias is proud to offer premium quality AquaPots. The goal of Proven Winners remains consistent across all product lines – to bring beautiful, high performance solutions to market.
